## A LARGE AND ATTRACTIVE PARADE

Is Followed by the Greatest Picnic ever Seen on the State Fair Grounds. The Whole Town is Gay with Appropriate Decorations-A Good Programme of Amusements.

Batter weather for a parade and pic nic could not be than that of Saturday, when the organized labor of this vicinity-celebrated Labor Day under the suspices of the Ohio Valley Trades and Labor Assembly.

The streets along the line of march were more profusely decorated than on any previous anniversary, and even on the back streets where the procession the back streets where the procession did not pass, there were a good many houses decorated. In addition to United States flags and bunting symbolic flags of the Knights of Labor and other labor organizations or craits, industry, art and other things were used to good effect, while huge portraits of noted labor leaders appeared here and there. The decorations still remain and yeaterday served a purpose as giving the city a gala appearance in the presence of the Engineers' Brotherhood.

THE PROCESSION Moved over the route already laid down in the papers.

The procession was headed by Chief

The procession was headed by Chief Marshail Imboff, Assistant John Purcell, and Aides John Donehoo, Wm. Deiters, Hoge Shively, Louis Strobel, Chas. Stein, Poter Englehart, Ed. Strantman, Andrew Stoetzer, C. W. Selvey, Chas. H. Heil and John Minkemyer, mounted; a platon of police officers, twenty men, and carriages occupied by the mayor, chief of police, city officials and the sheriff and deputies.

There were ten or eleven bands in line, and the number of men aggregated fully \$0,000. In addition to the various local unious the Farmers' Alliance was out in force, and the following houses made trade displays in the last division: Wheeling Installment Company, E. P. Rhodes, Fisher's Star Foundry, Joseph Bell & Co., Wheeling Shirt Factory, Balzer's Brewery, P. E. Schenk, Standard Sewing Machine Co., P. L. Brockhart, Mrs. Ziegenfelder, Wheeling Laundry, W. L. Reed, George E. Kurner, A. J. McGarroll, Reid's Nursery, D. B. Garvin & Son, The Hub and others.

All along the line of march the side-walks were lined with people, and at many places the crowds extended out into the streets.

THE PICNIC. The crowd on the State Fair Ground was equal to the attendance on one of the big days of the annual fair. The

was equal to the attendance on one of the big days of the annual fair. The number of people there was hard to estimate. Some people put it as high as 12,000, and 10,000 was certainly a conservative estimate. In fact, there was too large a crowd for entire comfort, but everybody was in a good humor and all managed to have a good time.

The races seemed the centre of attraction Bob Anderson acted as starter, Charles Hancher as timer and Clark Hamilton, J. W. Crosby and J. J. Hammond as judges.

For the first heat, a trot, there were three entries, "Butcher Boy," owned by Henry Stoehr; "Roller Boy," owned by William Ellingham. "Buttons" was driven by Dr. L. N. Reefer and "Roller Boy" by Earl Green. "Buttons" was driven by Dr. L. N. Reefer and "Roller Boy" being second in all.

For the pace there were three entries, "Dan Williams," owned by Levi Cassel; "Brown Harry," owned by Ed Holliday and "Dick D." owned by Magree, of Bellaire. Dan took three straight heats, while Dick D came in second in two of them.

W. D. Chambers's You Bet and John

W. D. Chambers's You Bet and John Nesse's Fanny were the only runners booked, and Fannie won the second and

Inite heats.

The best time made in the trot was 2:51, in the pace the same, while the fastest half-mile run was in 57h. William Henry beat Ed McAninch in a fifty-yard foot race.

THE HUB AND HUB RACE

In the firemen's race between Martin's Ferry and the Powell-Maule-Rodewig team of Bellaire Martin's Ferry again beat her old competitor. This race has been looked forward to with the intensest interest, owing to the heated rivalry between the two teams. Ex-Chief James A. Dunning, of the Wneeling department, was chosen as referee. Cast. S. F. Dean was the starter for the Martin's Ferry boys, and ex-Chief George Muth, of Bellaire, for that team. Robert Brown, for Bellaire, and John Shaughnessy, for Martin's Ferry, were judges at the finish.

The conditions were that the race was to be hub and hub, each team to pull the reel thirty yards and then unreel 200 yards of hose. The purse was \$175.

The race was exciting throughout, and fairly even, Bellaire finishing the unreeling of the hose just as Montgomery finished screwing on the nozie. The time was not reliably kept, but it was not over 32 seconds.

Martin's Ferry was so certain of victory that she had cloth badges ready for distribution as soon as the decision was announced. These were worn the rest of the day by hundreds of her partisans, men, women and children. Of course Martin's Ferry is prouder of her team than ever.

course Martin's Ferry is prouder of her team than ever.

All day there was plenty of music on the grounds for dancing and promenading, and there was no lack of amusement for the crowd. All in all, it was the most successful event of the kind ever given in Wheeling, and it reflected great credit upon the committees which had the various arrangements in charpe.

TWO SPECIAL MERIDITS.

One of the neatest displays in the parade was that of the Standard Sewing Machine Company, consisting of five neat wagons, with fancy red blankets on the horses, and decorated with flags. On each wagon was one of their fluest finished (union made) Standard rotary shattle sewing machines, and the drivers were clear out of sight.

Mr. H. W. Heary's new shirt factory, 1000 Main street, had a large float representing his factory, having five of his lady operators and five Standard Sewing machines.

### A FINE STOVE DISPLAY.

The only stove display in the Labor Day parade was that from Benj. Fisher's Star foundry. The display was arranged ander tondary. The display was arranged under the superintendency of Manager Charles Fisher, and it took four wagons to contain the splendid samples of Valley Star cook stoves, heating stoves and ranges. Each piece was handsomely decorated with flags and bunting, while each wagon contained several men. The reputation of the stoves,

which are made by the union men, is very high throughout the country, and the Fisher stoves are classed among the best manufactured. The display elicited words of admiration from the people along the line of march, Managar Charles Fisher, of the foundry, will present a cooking stove and complete outfit to the couple who will be married on the Fair grounds at the coming fair. The foundry is enjoying a very prosperous season.

## IT WAS ALL OVER SOON.

But one Man was Severely Punished Saturday Evening.

A PRIZE FIGHT EAST OF THE CITY.

Four Earnest Rounds are Fought in Fifteen Minutes-Two men Quarrel at a Ball, Benew the Trouble at a Picnic, and Finally Settle it with Nature's Weapons near Elm Grove.

Reports of a prize fight just east of Elm Grove reached the city Saturday evening, and inquiry showed that they were truthful. A gentleman who drove into the city over the National road first mentioned the fight to an INTELLI-SENCER reporter. He said just beyond Major Loring's place he noticed that a ot of men had formed a ring, and from

what he could hear it was evident that a prize fight was in progress. As he had a lady with him he did not stop, but came on to town.

It was later learned that the contestants were residents of the Elm Grove neighborhood, and that the fight grew out of a quarrel which originated at a dance in that neighborhood a week or so ago.

out of a quarrel which originated at a dance in that neighborhood a week or so ago.
Dave Wilson, a gardener, and John White, a farmer who lives on E. M. Atkinson's place, attended a dance at Elm Grove, and while there White accused Wilson of insulting a lady who was with the farmer. They had a pretty warm combat of words, but did not come to blows.

On Saturday the two men again met at the Labor Day picnic, on the State Fair grounds, and the quarrel was renewed. Each desired to avoid a fight in so public a piace, and so it was agreed to meet another time.

It was arranged that they should come together the same evening at a point east of Elm Grove, each with a limited number of friends. At 8 o'clock they faced each other there on a grassy spot, within a ring formed by the spectators, who considerably exceeded in number what was at first intended. Word of the intention to meet had been circulated quietly, and many of the residents of the neighborhood were attracted to the spot.

All the preliminaries were arranged and the men went at it. Four rounds were fought, the fight lasting fifteen minutes. White had the best of it from the start, and at the end of the fourth round his opponent did not come to the scratch, and White left the ring victorious. He showed no signs of suffering from his set-to, while Wilson was very painfully punished.

It is said the fight was very earnest and exciting from start to finish.

THE FAIRMONT STRIKE

THE FAIRMONT STRIKE

Situation at the Monoagah and Montana Works Unchanged. Fairmont West Virginian.

The situation at the Montana and Monongah mines is about the same as it was this time last week. The union men are still out and idle, but the Monongah works have been put in opera-tion, a great number of Italians having tion, a great number of Italians having been employed. The locked out men or strikers are behaving themselves in the same commendable manner, consequently sympathy for them is all the while on the increase. The fright occasioned by Mr. Moran's necturnal visit to the Hunsaker bridge having died away, the deputy sheriffs have been withdrawn from the Gaston works. Probably they have also been withdrawn from Montana, but we are not so advised. It is plain to be seen, however, as it was at the beginning of the strike, that nobody's property is in danger, and that the employment of deputy sheriffs is and was wholly unnecessary.

The Captain Pleased them

In its account of the dedication of the monument to Jesse Taylor at Jolley-town last week, the Washington Observer

town last week, the Wasnington Occasional Says:

Capt. B. B. Dovener, of Wheeling, was next on the programme, and for forty minutes held the audience in an impromptu speech by his logic, wit and eloquence. He took a line of thought suggested by the occasion and was carrying the people with him, and when about to reach an interesting climax caused considerable merriment by suddenly changing from the grave to the gay in the following language: "And Abraham Lincoln with that one stroke of his pen struck the manacles forever from the feet of four million slaves, and nutting his hand tenderly on the head from the feet of four million staves, and putting his hand tenderly on the head of the black man said: 'There will be no more free wool—save it be on the head of a negro.'"

A BODY IN THE RUINS Of the Box Factory-New York's Fatal

Fire. New YORK, August 28 .- Deluging streams of water were poured upon the smoking ruins of the Wooster street fire all last night and up till 9 o'clock this morning. At the latter hour Chief Bonner, of the fire department, dis-Bonner, of the fire department, dis-patched a messenger to the office of a well known contractor who cleared away the debris of the Park Place and Hotel Royal fires, and he soon had a force of seventy-five men busy remov-ing the rubbish. Electric lights have been fixed up and relays of men will work all night. It is believed there is one body under the ruins—that of Clara Morey, aged seventeen, of 88 Sheriff street, employed in Wagner's paper box factory. factory.

It Ought to be Popular.

Bakers as a class are not particularly progressive in a business way. There are exceptions, however, and one of the most notable of these is the Wheeling Bakery of this city. Mr. Brenneman never lets slip an opportunity to please the public. Even the issues of the presidential campaign have received his attention, and the result is a "Grand-father's Hat!" cake that has made its appearance within the last few days, and which no doubt will be found at all the leading grocery stores. It is said to be a delightful cake, and if a name goes for anything, it ought to be immusely popular.

POUNDED TO DEATH,

A Fiend whe Treated Ris Wife Inhumanly Killed by a Mob.

BUTLER, O., August 28.—A report comes to this place of one of the most atrocious crimes ever committed in this part of the country. At a point several miles east of here, on the line of the To-ledo, Walhonding & Ohio Valley railroad, near a small place called Roches road, near a small place called Rochester, is a large gang of laborers working on the construction of the road, the most of which is composed of foreign laborers and mostly Italians. Near this point lives a man named Solomon Stewart, with his wife and two children. Stewart bargained with six Italians to sell them his wife's virtue and forced her at the muzsle of a revolver to submit to the men. After the commission of the crime Stewart was badly beaten by the men, with whom he had a dispute about money. Last night a mob of citizens, who were after him to lynch him for his fiendish treatment of his wife, found him and pounded him to death.

sentenced him, "judicially dead," and yet he may never have the rope placed around his neck. McNulty was to be hanged Friday, but the sheriff's counsel advised that official not to proceed, as the governor's reprieve did not specify the time for execution, and that the prisoner must be brought before Judge Murnhy for resentence. The district attorney will now bring McNulty before Judge Murnhy on Monday, but the judge, speaking unofficially, says: "Time of execution having passed, McNulty, in contemplation of the law, is judicially dead. My court is done with him." If Judge Murnhy adheres to this opinion when the matter comes before him judicially, then there is no
